

Medical Release Certificate

This Medical Certificate must be completed by the Employee's attending physician if the Employee was off due to a non-work related illness/injury for 21 or more days; was hospitalized for any reason; or, was treated for a communicable or contagious disease, mental or nervous condition, diabetes, seizure disorder or cardiovascular disease. There must be sufficient data to enable Occupational Health Service personnel to determine that the Employee can return to work without hazard to self or others. This does not apply to FMLA covered absences.
