

Branch

e-Mail Network

The remainder of this year and 2012 will be one in which we will be facing enormous challenges as a Union. Getting information to the membership as quickly as possible will be crucial. Providing factual information instead of rumors will put us in a better position to react.

The Branch will be setting up an exclusive e-mail list, open to all members, to receive important messages as soon as the Branch does.

- *Your e-mail address will not be shared with anyone.*
- *It will only be used to communicate urgent information.*
- *You can cancel at any time.*

To sign-up for the *e-Mail Network* list you can give your e-mail address to your Steward or Area Rep directly, or you can send it in using the e-mail app on the Branch web site. All e-mails will be sent using *bcc* function so that no one will see anyone else's e-mail address.

If using the web site e-mail application, please be sure to fill in **name**, **e-mail address** and type **“network”** in the comment section.

The Branch web site address is;

Branch38NALC.com

Get involved and be informed!
